A USER-FRIENDLY HOME

AS SIMPLE AS THAT

Omar Lift's quick installation procedure requires minimum builder's work, thanks to the reduced pit and headroom. The installation also needs limited regulatory approval and benefits from reduced maintenance costs and low energy consumption by using the standard household 230V mains supply.

WITH ELEGANCE & STYLE

Safety

The car is enclosed on three sides and the infrared barrier on the access side guarantees passengers' safety. The enabling key on the pushbutton panels prevents the use from unauthorised persons. In case of power failure, an automatic controlled device brings the car back to the landing and allows the exit of passengers.

Accessibility

Omar Lift offers a choice of extremely functional and customisable solutions with special accessories, such as the powered door opening and landing calls. Omar Lift is an affordable solution ideal for those with impaired mobility or special needs.

Versatile

Omar Lift is a truly all-around product, designed and manufactured to meet a wide range of needs and tastes. From the garage to the roof, Omar Lift travels effortlessly upto seven floors.

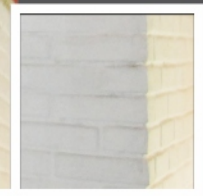

Reasons for choosing Omar Lift:

- Overcomes architectural barriers
- Compact, quiet and easy to install
- Power consumption like any household electrical appliance
- Reduced maintenance costs
- 3-year warranty
- Customised product
- Driven by Italian Technology

THE ICEBERG

A24

A White Travel

OMAR Italian white home lift indicates the simplicity & feel of an Italian design which is a market trend. White colour being neutral to the surrounding, it suits most of colour schemes which architects or home buyer decides for their homes. Our white home lift goes excellent with the beauty of the colour schemes.

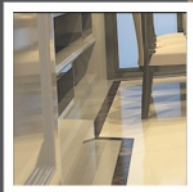

Technology Partner

The Golden Nest

G14

The Golden Path

In an architectural home of sleek glazed facades and cold silver-metal exteriors, a golden structure is a rare treat for the eyes. Not only does it stand apart from its surroundings, but OMAR golden home lift brings unexpected warmth to the sometimes-unforgiving geometric lines of modern homes. And while actual gold isn't typically used in the lift, the hue itself adds a certain prized look to the lift, elevating a home from celebrated to cherished.

BLACK PEARL

B34

The Dark Secret

Black has been the symbolic color of solemnity and authority which shows its dominance among other colours. Like black ink on white paper creates highest contrast, having a hue less black home lift in the lighter colour schemes adds to the contrast of architectural schemes. Black Aluminium structure with crystal clear glass combined makes it another beautiful piece of artwork in your home.

MOON LIGHT

G14

Silver Glory

OMAR Silver home lift resembles shine & specular reflections. Unlike any other mirror artwork in your home this silver home lift combined with glass acts as another piece of marvel. Place in the ambient light it just adds beauty to your home ensuring a mesmerizing experience.

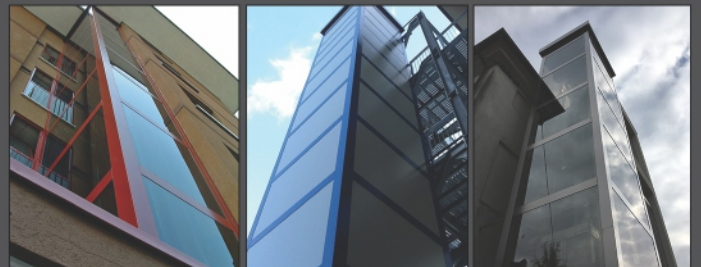

MOBILITY LIFT

- Mobility Lift Model is basically made up of MS Structure which can be covered with Glass or other material.
- MS structure can be either powder coated with different shades as per colour scheme of the homes or can be clad with SS sheets for increased durability.
- Claddings are available in Various shades of ACP sheet, SS Hairline Finish, SS Mirror Finish, SS Gold Finish.
- It can be installed where pit, headroom are constraints and required travel heights are not within the limits of OMAR home lifts.
